

1811/10 PCGS MS 64

Ex Dale Friend

FROM MAIL BID SALE NO. 35 - LOT 51 - APRIL 2012

PRICE REALIZED -- \$22,385

51. 1811/10 O.101 R.1 PCGS Secure Shield MS 64. *From the Dale Friend Collection and so noted on the PCGS label.* Unquestionably in the Condition Census; words will not suffice to describe the look and desirability of this popular overdate. You must see the coin to appreciate it. The strike and luster are off the charts. There is a faint blush of rose toning on the obverse. The reverse is wholly untoned with blinding luster. Examine the photo and note the raised remnants of an underlying 0, bottom left and top right of the second 1. Yes, this is an early die state, further enhancing its appeal. There have been two PCGS MS 64 examples of the 1811/10 offered at auction over the past 5+ years: one by Stack's/Bowers during the 2011 ANA Sale, another by Heritage at the Jan. 2007 FUN Show. Each brought \$17,250. Neither coin holds a candle to the Friend coin when we compare strike, die state and surfaces. I could go on. But now it's your turn. Expect a bow of reverence when I hand this remarkable coin to its new owner.
